

# Vacancy Psychiatrist

## Mental Health Foundation (MHF) Sint Maarten

---

The Mental Health Foundation (MHF) on Sint Maarten is a young and dynamic foundation developing and adjusting to the Mental Health needs on the island, including the surrounding islands. The Foundation offers a vibrant environment with multiple care products that requires initiative and innovation. For these reasons we have a vacancy for a Psychiatrist who will provide psychiatric care to the Community of Sint Maarten.

### Qualifications:

- A degree as a medical specialist with a specialization in both Adult and Children Psychiatry.
- Must have experience working in a social psychiatric environment and clinical setting for in/outpatient(s), ambulant care, crisis intervention and admission, Daycare Treatment Center with Short & Long Stay.

### Job requirements

- The Psychiatrist must be able to work fulltime (40 hours a week) including being on-call on a rotating schedule shared with colleagues.
- Must provide professional diagnosis and treatment to the patients and clients of the foundation.
- Extensive knowledge and experience in dealing with clients with various psychiatric disorders.
- Experience and ability to create and maintain strong relationships with key stakeholders
- Open and constructive behavior that is aimed at cooperation and results.
- Be an excellent communicator who can connect people with each other to foster excellent team work within the organization.
